

Oakley Lab - Gripped and Loaded

Sunday, 20 July 2008

Last Updated Monday, 12 January 2009

One of the many unique features of the Oakley Rolling Labs travelling across the globe is that they come equipped with custom laser cut griptape installed by Rob Riley and Corky White of Motto, Inc. and Mark Zierath. Stages, roofs, and floors all showcase what can be done when you let loose the creative spirit of the Oakley team with highly focused beams of light. Thanks to Arron Nowlin for all his help.
